SKILLS SUMMARY

- **Machine Learning :** Python (Flask, NumPy, Matplotlib, scikit-learn)
- **Web Development :** HTML, CSS, JavaScript, Bootstrap
- **Programming Languages :** Python, JavaScript ,C++
- **Databases :** MYSQL
- **Cloud & BI Tools:** Microsoft Azure, Power BI
- **Version Control:** Git

EDUCATION

Institute of Engineering and Science, IPS

Indore,India

- **B.Tech. in Computer Science (AIML) Engineering CGPA: 8.02** **Dec 2021 - Jun 2025**

WORK EXPERIENCE

Data Analyst Trainee

ICT Academy – Infosys Foundation Program

- Created dashboards using Power BI to display data clearly.
- Handled large amounts of data using SQL and Azure, making data processing easier.
- Learned data analysis by working on practical tasks, improving problem-solving skills.

PROJECTS

Book Recommendation System

- Developed ML book recommendation system with Python, achieving more than 80% accuracy using collaborative filtering.
- Built full-stack web app with Flask, HTML, CSS, JS for real-time recommendations.

Responsive blog Website

- Developed FlaskBlog using Flask, Bootstrap, and JavaScript for a dynamic, responsive blog website. Integrated MySQL database on XAMPP for efficient data management of user posts and comments.

CERTIFICATIONS

- Obtained **AWS certification** during my engineering studies.
- **Springboard AI Primer Certification**
- **Data Analytics Certification** – ICT Academy, powered by Infosys Foundation
- **ChatGPT Prompt Engineering for Developers** – DeepLearning.AI & OpenAI

EXTRACURRICULAR ACTIVITIES

EVENT & YOUTH PROGRAM MANAGEMENT – ISKCON

- Managed Prabhupada Vyasa Puja and multiple ISKCON events, handling logistics and coordination.
- Led youth engagement programs, organizing retreats, training sessions, and mentorship initiatives.
